CUPRA LEON

↓ *UNIQUE DETAILS
THAT COUNT*

Optimise your drive experience with enhanced lateral support. The all-new CUP Bucket seats with race-inspired curvature, reinforce comfort on all roads. And premium sportive design, with rear cover in Carbon Fibre, with stylish cooling vents and sophisticated Copper stitching for a timeless look. Available in a choice of Genuine Black Leather or Genuine Petrol Blue Leather.

↑ *INNER POWER.
OPTIMUM
CONTROL*

The CUPRA steering wheel comes in leather with part Dark Aluminium detailing and copper stitching. An ambient light stretching across the dash with adjustable colour intensity provides a stylish finish and also doubles as a safety alert.

boundless range and full power.
Or switch to e-Mode and enjoy
emission-free driving.

Our global range of cars and product specifications varies from country to country.
Please, visit your local CUPRA website to know more about the product offer available for you.

CUPRA LEON

↑ *THE FREEDOM
TO EXPLORE*

Cruise the city with a 60 km* electric range
and recharge at home in approximately
3h 40 min with the CUPRA Charger.
When you want to explore further afield,
automatically combine both engines for
a total range of 690 km.

↑ *DRIVE FOR OTHERS.
DRIVE FOR YOURSELF*

With the option to drive conscientiously
using the electric engine. Or at full, combined
power of up to 245 hp.

* The accurate range for your vehicle will vary according to a number of different factors which include the route, weather conditions, vehicle load (occupants + luggage), battery age and condition, optional equipment (alloys, tyres, etc.), the use of peripheral energy consumption systems such as heating, air conditioning and heated seats, as well as your driving style.

The indicated range has been calculated in compliance with WLTP standards, which set out test conditions applicable to all car manufacturers to ensure the comparability of these tests for all vehicles.

→ *PETROL
PERFORMANCE*

Go from 0-100 km/h in just 4.9 seconds in the CUPRA Leon Sportstourer, with 4WD Technology, twin exhaust pipes and a formidable 310 hp petrol engine.

↑ *PURE,
SPORTING
POWER*

The CUPRA Leon 5D petrol version has a powerful 300 hp engine, taking you from 0-100 km/h in 5.7 seconds.

* 1.4 TSI 180 kW PHEV (Only available with combination 19" Alloy wheels).
2.0 TSI 180 kW (Only with PDC). Not available with 18" Alloy wheels.

Our global range of cars and product specifications varies from country to country.
Please, visit your local CUPRA website to know more about the product offer available for you.

↓ *EXCLUSIVE
BREMBO BRAKES*

A petrol exclusive, fitted with Brembo brakes* with sport uprights for enhanced stopping power.

INNOVATION

Our global range of cars and product specifications varies from country to country.
Please, visit your local CUPRA website to know more about the product offer available for you.

↓ YOUR CAR, YOUR WAY

Choose from 4 distinct driving profiles. To make the most out of your CUPRA Leon, you can access CUPRA Mode instantly by holding down the drive mode button on the satellite steering wheel, this will give you a sportier driving experience. When you want to consume less battery (in electric mode) or less fuel (in petrol mode) just select the comfort driving profile.

↓ 10" TOUCHSCREEN

Staying in control is easier than ever. The voice controlled 10" Navi System touch screen allows you to customise the information you need into 3 accessible panels.

Place maps, driving mode and your phone's display all within your line of vision. And manage your smartphone through the infotainment screen, with easy connection through wireless Full Link.

↑ OPTIMUM COMMAND

The CUPRA Steering wheel in leather with integrated drive mode buttons gives you total control at your fingertips. Start and stop the engine at the touch of a button. And shift up and down through the gears without taking your hands off the wheel.

Our global range of cars and product specifications varies from country to country. Please, visit your local CUPRA website to know more about the product offer available for you.

→ *TRAFFIC
JAM ASSIST*

Traffic Jam Assist automatically controls braking according to what's happening ahead, while keeping you in the centre of the lane. Very useful in stop-start traffic.

→ *SIDE &
EXIT ASSIST*

Exit Assist warns of approaching traffic from behind and activates a signal in your wing mirrors, helping you to change lanes safely.

← *ADAPTIVE
CRUISE
CONTROL
PREDICTIVE*

Sensors monitor traffic up ahead and adjust your speed accordingly. Keeping you moving forward, safely and accident free.

← *TRAFFIC
RECOGNITION
SYSTEM*

Traffic Sign Recognition detects road signs and displays speed limits on your Infotainment system, preventing you from exceeding it.

CUPRA CONNECT

ALWAYS CONNECTED, TO YOUR CAR AND TO THE WORLD AROUND YOU, ANYWHERE AND AT ANY TIME VIA THE CUPRA CONNECT APP OR ON YOUR CUPRA INFOTAINMENT SYSTEM. DISCOVER A RANGE OF ONLINE AND CONNECTED SERVICES THAT WILL TRANSFORM YOUR EXPERIENCE.

↑ REMOTE ACCESS SERVICES

Spot your car in the crowd, lock and unlock remotely, check your vehicle's status and much more.

Our global range of cars and product specifications varies from country to country. Please, visit your local CUPRA website to know more about the product offer available for you.

↑ SAFETY AND SERVICE PACK

With Emergency Call, assisting you automatically in case of an accident.

↘ ONLINE INFOTAINMENT SERVICES

See real-time traffic updates and optimise your routes on the go.

CUPRA CHARGER

WITH 3 CHARGERS TO CHOOSE FROM, ALL WITH EASY INSTALLATION AT YOUR HOME. UP TO 8 TIMES FASTER THAN A CONVENTIONAL SOCKET, WHILE PREVENTING ELECTRICAL OVERLOAD TO FULLY CHARGE IN APPROXIMATELY 3H 40MIN.

↑ CUPRA CHARGER

The best solution to charge safely, easily and quickly. Available in 1ph and 3 ph versions for up to 11 kW AC.

Our global range of cars and product specifications varies from country to country. Please, visit your local CUPRA website to know more about the product offer available for you.

↗ CUPRA CHARGER CONNECT

Connects to your home network for remote functionality. Letting you check updates & data via your smartphone.

↑ CUPRA CHARGER PRO

All the benefits of the CUPRA Charger Connect adding LTE connectivity & a certified MID electric meter.

COMPLETE CUSTOMISATION

SEIZE THE POWER TO CONVEY YOUR INDIVIDUAL STYLE, WHETHER FOR FUNCTION, PROTECTION OR SIMPLY JUST ENJOYMENT. CHOOSE TO MOVE IN A WAY THAT ECHOES WHO YOU ARE AND WHERE YOU ARE GOING. AFTER ALL, IT'S THE SMALLER THINGS IN LIFE THAT MAKE IT WORTH THE RIDE.

Our global range of cars and product specifications varies from country to country.
Please, visit your local CUPRA website to know more about the product offer available for you.

↑ *SKI RACK*

Heading to the snow? The rack carries up to 6 pairs of skis or 4 snowboards, with soft rubber to protect your gear. It requires no additional tools to install and fits most roof bars.

Our global range of cars and product specifications varies from country to country. Please, visit your local CUPRA website to know more about the product offer available for you.

↓ *SURF RACK*

Time to chase the waves. The surf rack adapts perfectly to the size and shape of your board for effortless loading or unloading and allows you to carry two boards along with their masts.

↓ *BIKE RACK*

Take to the trail by loading up your bike on the specially designed bike roof rack. Fastening is straightforward and allows you to swiftly fit your bike into position on your roof.

CUPRA LEON

↑ *TOWING BRACKET BICYCLE CARRIER*

Cycling reimagined. Share the adventure by attaching up to 3 bikes at a time. The carrier secures easily onto the steel tow ball, allowing you more time for exploration on 2 wheels.

Our global range of cars and product specifications varies from country to country. Please, visit your local CUPRA website to know more about the product offer available for you.

ENVIRONMENTAL INFORMATION

LIGHTS

Headlamps and rear lamps are 100% LED, reducing significantly power consumption and increasing life and effectiveness of the lights.

RENEWABLE AND RECYCLED MATERIALS

Presence of 15 kg of plastic of recycled origin (6.5% vs. total vehicle plastic) and use of renewable materials (cotton, natural rubber and cellulose) in different parts of the vehicle.

SEATS

The use of new PUR foam formulations reduces the emission of volatile organic compounds (VOCs) in the cabin interior by up to 50%.

BRAKES

Incorporation of RBO technology (which reduces the residual brake torque between the brake pad and disc), permits an emissions reduction of up to 1g CO₂/100 km.

AERODYNAMICS

Improved and enhanced vehicle aerodynamics, thanks to optimised design throughout the bodywork, wheels and cooling system.

BODYWORK

Use of ultra-high strength steel, which together with hot stamping technology, permits a reduction in thicknesses and weight without loss of performance.

ACOUSTICS

All versions incorporate a double-seal system on the doors, which reduces noise levels and enhances comfort.

TYRES

Low rolling resistance tyres provide a reduction of the rolling resistance coefficient.

MANUFACTURING PROCESS

In the period from 2010 to 2020, we have reduced the CO₂ emissions of every car manufactured by 45%, while also cutting energy consumption per car by 1%. Additionally, we've achieved a 28% saving in water consumption per car, and 64% reduction in waste generated per car.

Recovery of part of the heat emitted during the incineration process of paint drying ovens, for use as air conditioning, heating process baths or absorption machine is also helping to save energy.

ENVIRONMENTAL INFORMATION

ENGINES

e-HYBRID: Zero emissions in electric mode.

INTELLIGENT HYBRID

This function make it easy for the driver to conserve and optimise electric power based on the planned route.

ZERO EMISSION

Indicator that displays the distance driven with zero emissions using e-Mode.

E-RANGE MONITOR

Informs the driver of the increase in range of electric-only engine when switching off.

Our global range of cars and product specifications varies from country to country.
Please, visit your local CUPRA website to know more about the product offer available for you.

TECHNICAL SPECIFICATIONS

Discover all the technical specifications by engine type, from emissions and consumption data; to performance statistics and transmission types.

Here you'll find all the technical aspects covered so you can make an informed selection when it comes to your CUPRA Leon.

Our global range of cars and product specifications varies from country to country. Please, visit your local CUPRA website to know more about the product offer available for you.

¹ The accurate range for your vehicle will vary according to a number of different factors which include the route, weather conditions, vehicle load (occupants + luggage), battery age and condition, optional equipment (alloys, tyres, etc.), the use of peripheral energy consumption systems such as heating, air conditioning and heated seats, as well as your driving style.

The indicated range has been calculated in compliance with WLTP standards, which set out test conditions applicable to all car manufacturers to ensure the comparability of these tests for all vehicles.
