WE BELIEVE IN ANOTHER WAY TO DRIVE. TO FEEL THE ROAD WITHOUT TAKING A SINGLE CURVE FOR GRANTED. TO VALUE EVERY SINGLE DETAIL. FROM THE WHEEL RIMS TO THE REAR COAST TO COAST LIGHTS. WE BELIEVE IN THOSE WHO ASK IF A BUCKET SEAT IS REALLY NECESSARY, OR IF 310 HORSES IS TOO MUCH. BECAUSE THE NEW CUPRA FORMENTOR IS NOT FOR THOSE WHO NEVER QUESTION. BUT FOR THOSE WHO DO, AND STILL DECIDE TO GO AHEAD.

Our global range of cars and product specifications varies from country to country.

ANOTHER WAY TO OBSERVE

BEAUTY. YOU CAN ARGUE ABOUT IT, OR YOU CAN ENJOY IT. BECOME ANGRY WHEN OTHERS CANNOT SEE THE SAME BEAUTY THAT YOU DO, OR UNDERSTAND THAT IT IS PRECISELY THE SUBJECTIVENESS OF BEAUTY THAT MAKES IT ETERNAL. ONE PERSON, ONE BEAUTY. UNTIL THE END OF TIME. THIS OTHER BEAUTY, WITHOUT LIMITS OR RESTRICTIONS, HAS LITTLE TO DO WITH THE OBJECT BEING OBSERVED, AND EVERYTHING TO DO WITH THE EYES THAT LOOK UPON IT.

ISN'T THAT BEAUTIFUL?

ANOTHER WAY TO MOVE

YOU GO RUSHING THROUGH LIFE. YOU WANT EVERYTHING IMMEDIATELY, AND HATE TO WAIT. BUT MAKE NO MISTAKE. HASTE HAS LITTLE TO DO WITH SPEED. HASTE IS YOUR ENEMY. IT MAKES YOU ARRIVE WITHOUT ENJOYING THE JOURNEY. SPEED, CONTRARY TO WHAT MANY PEOPLE THINK, IS NOT ABOUT WHO ARRIVES FIRST. IN FACT, IT'S NOT EVEN ABOUT ARRIVING. IT'S ABOUT MOVING SO FAST THAT YOU CANNOT PERCEIVE A DIFFERENCE BETWEEN THE ROAD AND YOURSELF. CHOOSING THE LONG WAY. KNOWING THERE IS ANOTHER WAY TO DO THINGS. TO STOP ASKING: "DO I REALLY NEED THIS POWER?", AND START ANSWERING:

"I'LL FIND OUT WHEN I ACCELERATE".

ENVIRONMENTAL INFORMATION

LIGHTS

Headlamps and rear lamps are 100% LED, increasing life service by up to 10 times. For headlamps, power consumption is significantly reduced at least 30%, and the luminous flux effectiveness is increased at least 30% in comparison to a halogen lamp.

ENGINES

e-HYBRID: The all-electric motor in the e-HYBRID engine enables zero tailpipe emission driving in electric mode.

Diesel: 2.0l Diesel engines allow the use of R100 fuel. R100 is made from 100% renewable raw material (Hydrotreated Vegetable Oil, HVO), achieving a reduction of up to 90% in CO₂ emissions during its production, compared to a conventional fuel.

RENEWABLE AND RECYCLED MATERIALS

Seat bucket (no leather) configuration: Its seat central areas contain at least 73% of recycled textile.

Seat cupbucket configuration: Its seat central areas contain at least 71% of recycled textile.

MANUFACTURING PROCESS

Between 2010 and 2023, we reduced the CO₂ emissions per manufactured car by 69.3%, while also cutting the energy demand per car by 33.3%. Additionally, we achieved a 45.1% saving in water consumption and a 78.9% reduction in waste generated per car.

In our path towards a circular economy, we have established a process for dismantling discarded parts and components. This process breaks down complex items into single-material parts, enabling proper segregation and giving these materials a second life. As a result, what was once considered non-recoverable waste is now transformed into revalorized, reusable materials.

E-RANGE MONITOR

Informs the driver of the increase in range of electric-only engine when combustion-only is off.

ZERO EMISSIONS

An indicator that displays the distance driven with zero tailpipe emissions in electric-only mode.

TECHNICAL SPECIFICATIONS

Discover all the technical specifications by engine type, from emissions and consumption data; to performance statistics and transmission types.

Here you'll find all the technical aspects covered so you can make an informed selection when it comes to your CUPRA Formentor.

* The accurate range for your vehicle will vary according to a number of different factors which include the route, weather conditions, vehicle load (occupants + luggage), battery age and condition, optional equipment (alloys, tyres, etc.), the use of peripheral energy consumption systems such as heating, air conditioning and heated seats, as well as your driving style.

The indicated range has been calculated in compliance with WLTP standards, which set out test conditions applicable to all car manufacturers to ensure the comparability of these tests for all vehicles.
